

Billing, Coding and Compliance Updates for 2023

Presented by:
Kathy (KMC) Weidner, MCS-P,
CPCO,CCPC, CCA
KMC University

1

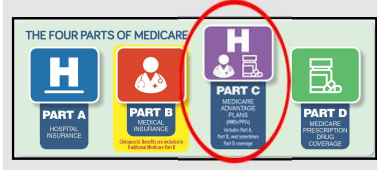

Our Plan for Today

- Make** Make sure you're ready for an influx of Medicare Part C patients and what to do about them
- Become** Become aware of the changes that the No Surprises Act brings for 2023, and refresh on 2022's rules that are being missed by most practitioners who see self-pay patients
- Find out** Find out what changes occur in 2023 with the E/M coding guidelines and how they might apply to your practice
- Review** Review a "beginning of the year" checklist to make sure 2023 is the best year yet
- Be** Be aware of Comparative Billing Reports and what to do if you get one

2

Medicare Part C- Did Your Patient Change?

- An estimated 65% of Medicare patients are now enrolled in Part C
- Open enrollment just happened
- Every Medicare patient must be verified properly- check the portal
- HMO, PPO or PFBS?

3

Enroll in Part C Plans if Desired

★ Decide whether to enroll with Medicare Part C plans. Some Part C plans include additional benefits which may cover more than CMT. **NOTE:** If you are out of network, do not treat Medicare Part C patients as cash patients. Plan type impacts billing requirements. PFFS plans require a provider to accept terms or refer the patient out. Other plan types, bill the limiting fee.

4

First Tier, Downstream Obligations of Part C

- FWA training annually
- All team must complete
- Code of Conduct-like OIG
- Exclusion List screenings-like OIG
- Reporting mechanisms

III. FDR Medicare compliance requirements

5

The Rules are Clearly Stated

- FWA training annually
- All team must complete
- Code of Conduct-like OIG
- Exclusion List Screenings-like OIG
- Reporting mechanisms

We're responsible for fulfilling the terms and conditions of our contract with CMS. And we must meet applicable Medicare program requirements. Our FDRs are responsible for complying with these requirements. And they must ensure that their downstream entities also comply with applicable laws and regulations. This includes the requirements in this guide.

Review compliance program requirements
This guide summarizes Medicare compliance program requirements. Be sure to review it and comply with these requirements each calendar year. Here are some of the actions you must take:

- Distribute a code of conduct or a compliance policy
- Distribute general compliance and FWA education and training
- Complete exclusion list screenings
- Make employees aware of reporting mechanisms
- Report FWA and compliance concerns to us
- Report and respond to case file abuse operations
- Fulfill specific federal and state compliance obligations
- Monitor and audit first tier, downstream and related entities

What can happen if you don't comply?
If you fail to meet CMS Medicare compliance program requirements, it may result in:

- Issuance of a corrective action plan
- Fines
- Termination of your contract and relationship with us

Our response to noncompliance depends on the severity of the issue. As an Actual FDR, if you discover a compliance issue, you must take such action to fix the issue. And you need to prevent it from happening again.

Confirm completion of requirements
You must keep evidence of your compliance with these requirements for no less than 10 years. This evidence may include employee training records and completed exclusion list screenings.

Medicare Compliance performs various oversight activities each year to test your organization's compliance with the requirements outlined in this guide. In addition, we may conduct or audit a monitoring event, or ask you to complete an attestation.

If you've sent an attestation, it must be signed by someone in your organization who has responsibility, directly or indirectly, for all:

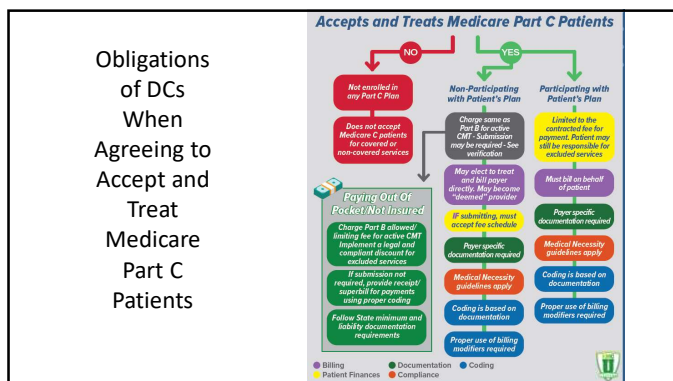

- Employees
- Contracted personnel
- Providers and practitioners
- Locations that provide health care and/or administrative services for our Medicare plans

The signers could be your compliance officer, chief medical officer, practice manager or administrator, an executive officer or someone else in a similar position.

Want some help?
Check out the **FDR Toolbox** at the end of this guide.

6

7

New Year Checklist- Medicare Part C

- Re-verify every Medicare patient as they come in
- Double check ALL cards-they may not know
- Update your system depending on participation level
- Go through your Part B portal to confirm – if Part C participating, must verify as any other commercial plan
- Find the "Advance Notice of Non-Coverage" form your Part C payer requires—**NEVER use Part B ABN**
- Make sure your FDR obligations are met

8

Qualified Medicare Beneficiaries (QMB)

DUALLY ELIGIBLE BENEFICIARIES

"Dually eligible beneficiaries" generally describes beneficiaries enrolled in Medicare and Medicaid. The term includes beneficiaries enrolled in Medicare Part A and/or Part B and getting full Medicaid benefits and/or assistance with Medicare premiums or cost sharing through the Medicare Savings Program (MSP).

- **Qualified Medicare Beneficiary (QMB) Program:** Helps pay Part A, Part B, or both Program premiums, deductibles, coinsurance, and copayments.
- **Specified Low-Income Medicare Beneficiary (SLMB) Program:** Helps pay Part B premiums.
- **Qualifying Individual (QI) Program:** Helps pay Part B premiums but is limited to a first-come, first-served basis.
- **Qualified Disabled Working Individual (QDWI) Program:** Pays Part A premiums for certain disabled and working beneficiaries under 65 not getting Medicaid and who met certain income and resource limits set by their State.

- These patients must be handled properly
- Another reason Medicare verification is critical
- Even when Medicaid doesn't cover chiropractic, they must work with QMB patients for reimbursement

9

Verify QMB Status

Eligibility for State span 01/19/2022 to 01/19/2023

Sample EOB-Qualified Medicare Beneficiary

June 18, 2017
Dr. Susan Jones, M.D., (555) 555-1234
 Brevard County Physical Therapy Center, 32 Main Street, Brevard, NC 28712-4187

Service Provided & Billing Code	Service Approved?	Amount Provider Charged	Medicare-Approved Amount	Amount Medicare Paid	Maximum You May Be Billed	See Notes Below
Therapeutic exercise to develop strength, endurance, range of motion, and flexibility, each 15 minut (97110)	Yes	\$45.00	\$28.54	\$22.83	\$0.00	
Total for Claim #02-10195-592-677		\$45.00	\$28.54	\$22.83	\$0.00	A

Notes for Claims Above
A You're in the Qualified Medicare Beneficiary (QMB) program, which pays your Medicare costs. Health care providers who accept Medicare can't bill you for the Medicare costs for this item or service, but you may be charged a small Medicaid copay.

13

14

Notifier (Practice) Selection: Kathy's Chiropractic Heava, 1234 Main Street, Honolulu, HI 99999, 999-555-7777

Patient Name: _____ Identification Number: _____

Advance Beneficiary Notice of Noncoverage (ABN)

NOTE: If Medicare doesn't pay for **Chiropractic maintenance care** listed above, you may have to pay. Medicare does not pay for everything. If you are a Medicare beneficiary, you may have a good reason to think you need it. We expect Medicare may not pay for the **maintenance care** listed above.

Chiropractic Maintenance Care	Reason Medicare May Not Pay For	Estimated Cost
98949	Medicare does not pay for chiropractic maintenance care.	\$24.71
98941		\$32.56
98942		\$41.87

WHAT YOU NEED TO DO NOW:

- Read this notice, so you can make an informed decision about your care.
- Ask us any questions that you may have after you finish reading.
- Choose an option below about whether to receive **Chiropractic maintenance care** listed above.

Options: Check only one box. We cannot choose a box for you.

OPTION 1. I want the **maintenance care** listed above. You may ask to be paid now, but I also want Medicare billed for an official decision on payment, which is sent to me on a Medicare Summary Notice (MSN). I understand that if Medicare doesn't pay, I am responsible for payment, but I can appeal to Medicare by following the directions on the MSN. If Medicare does pay, you will refund any payments I made to you, less copays or deductibles.

OPTION 2. I want the **maintenance care** listed above, but do not bill Medicare. You may ask to be paid now as I am responsible for payment. I cannot appeal if Medicare is not billed.

15

Options: Check only one box. We cannot choose a box for you.

OPTION 3. I don't want the **maintenance care** listed above. I understand with this choice I am not responsible for payment, and I cannot appeal to see if Medicare would pay.

Additional Information:

18

New Year 2023 QMB and Medicaid Refresher

- Evaluate which patients may be QMB now, but not handled properly
- Update your verification in the MAC portal and gather info on all
- Determine whether they are Part B or Part C
- Make sure you have clarity on Medicaid benefits
- Confirm you have a proper QMB ABN form

19

Be Aware of Some Coding Changes and an Update

- E/M definitions clarifications
- Changes to prolonged services E/M codes
- UHC and others clarifying when 97140 can be used with adjustments
- Roller table traction – new policy

20

Clear Guidance on NP vs. EP ... Finally!

New and Established Patients

► Solely for the purposes of distinguishing between new and established patients, **professional services** are those face-to-face services rendered by physicians and other qualified health care professionals who may report evaluation and management services. A new patient is one who has not received any professional services from the physician or other qualified health care professional or another physician or other qualified health care professional **of the exact same specialty and subspecialty** who belongs to the **same group practice** within the past three years.

An established patient is one who has received professional services from the physician or other qualified health care professional or another physician or other qualified health care professional **of the exact same specialty and subspecialty** who belongs to the **same group practice** within the past three years. See Decision Tree for New vs Established Patients.

In the instance where a physician or other qualified health care professional is on call for or covering for another physician or other qualified health care professional, the patient's encounter will be classified as it would have been by the physician or other qualified health care professional who is not available. When advanced practice nurses and physician assistants are

- This is finally in writing
- Remember, an EP has been in your office within three years
- Even if it's a new accident or condition

21

Prolonged Services Coding Updates

- Deletion of Prolonged Services E/M codes 99354-99357
- Revision of guidelines for Prolonged Services E/M codes 99358, 99359, 99415, 99416
- Revision of Prolonged Services E/M code 99417 and guidelines
- Establishment of Prolonged Services E/M code 993X0 and guidelines
- Codes 99415-99415 are not payable by Medicare. Use appropriate G codes
- Remember, we only use these after exceeding 99205 or 99215 guidelines

22

A Number of Definition Changes for Clarity

Stable, chronic illness: A problem with an expected duration of at least one year or until the death of the patient. For the purpose of defining chronicity, conditions are treated as chronic whether or not stage or severity changes (eg, uncontrolled diabetes and controlled diabetes are a single chronic condition). "Stable" for the purposes of categorizing MDM is defined by the specific treatment goals for an individual patient. A patient who is not at his or her treatment goal is not stable, even if the condition has not changed and there is no short-term threat to life or function. For example, a patient with persistently poorly controlled blood pressure for whom better control is a goal is not stable, even if the pressures are not changing and the patient is asymptomatic. The risk of morbidity **without** treatment is significant.

Acute, uncomplicated illness or injury: A recent or new short-term problem with low risk of morbidity for which treatment is considered. There is little to no risk of mortality with treatment, and full recovery without functional impairment is expected. A problem that is normally self-limited or minor but is not resolving consistent with a definite and prescribed course is an acute, uncomplicated illness.

Acute, uncomplicated illness or injury requiring hospital inpatient or observation level care: A recent or new short-term problem with low risk of morbidity for which treatment is required. There is little to no risk of mortality with treatment, and full recovery without functional impairment is expected. The treatment required is delivered in a hospital inpatient or observation level setting.

Stable, acute illness: A problem that is new or recent for which treatment has been initiated. The patient is improved and, while resolution may not be complete, is stable with respect to this condition.

23

Clarification and Updated Policy: 97012-Roller and Massage Tables

Procedure Code 97012, Mechanical Traction

Introduction:
The American Chiropractic Association (ACA) receives numerous requests for coding clarification regarding mechanical traction.

Definition:
Current Procedural Terminology (CPT) code 97012 describes the "application of a modality to 1 or more areas: traction, mechanical". While third-party payer policies may differ regarding what constitutes mechanical traction, the CPT Assistant defines mechanical traction as follows: "The force used to create a degree of tension of soft tissues and/or to allow for separation between joint surfaces. The degree of traction is controlled through the amount of force (pounds), allowed duration (time), and angle of pull (degrees) using mechanical means. Terms often used in describing pelvic/cebral traction are intermittent or static (describing the length of time traction is applied) or auto traction (use of the body's own weight to create the force)".

The goals of mechanical traction typically include one or more of the following: re-establishing normal ranges of motion, reducing pain and/or muscle spasm, enhancing muscle relaxation, and improving blood flow to soft tissue.

Application:
The CPT Physical Medicine and Rehabilitation section does not have the granularity or distinction of identifying specific mechanical traction devices. When reporting physical medicine and rehabilitation modalities, the clinical necessity for the service and the therapeutic effect how the treatment will address the goals of the care plan should be documented.

Roller Tables:
The American Medical Association (AMA) currently has **no specific CPT or HCPCS code** that reflects the act of a patient lying recumbent on massage or roller tables. Roller tables do not meet the definition of auto traction according to the AMA CPT Assistant. They do not create a static force to allow for the separation of joint surfaces. The appropriate reportable code would be CPT code 97012 and include modifiers specify type and time if used under constant attendance.

24

What's Possible?

- Change this service to cash
- Consider using the premise that it's an acknowledgement to self-pay
- Make a description letter for the service to include if billing 97039

25

Refresh Yourself on Recent ICD-10 Coding Changes

- Cervicalgia is still being used incorrectly-M54.2
- Cervicalgia is always going to bounce due to Excludes 1 notes when M50 series is used
- Cervicalgia due to an intervertebral disc disorder already includes M54.2
- Lumbalgia M54.59 is the best code

26

New Year 2023 Coding Updates

- Review whether you have been using prolonged services codes and update them in your system
- Ensure all team members know the difference between NP and EP
- If you use Roller Tables or Aqua Bed Massagers, discuss coding and billing changes and update compliance policy if you are still using 97012
- Triple check that all DX codes are up to date in your billing system
- Refresh yourself on Excludes 1 and 2 for the codes billed most often

27

No Surprises Act Year 2

You must comply if you see any cash paying patient who is not using insurance

28

What Does Apply To Majority of DCs?

29

Provider Impact

- Improve**
 - Improve provider directories (PHSA 2799B-9)
- Provide**
 - Provide **good faith estimate** in advance of scheduled services, or upon request (PHSA 2799B-6; 45 CFR 149.610 (for uninsured or self-pay individuals))

30

Payment Dispute Resolution for 2023

Providers: what to expect when a patient starts payment dispute resolution

The "No Surprises" requirements are effective as of January 1, 2022, and protect uninsured (or self-pay) consumers from many unexpected high medical bills. If a consumer doesn't have health insurance, or doesn't plan to use that insurance to pay for health care items or services, they must be given a "good faith estimate" of what they may be charged, before they get the item or service. Once an uninsured (or self-pay) consumer schedules an item or service (like a medical device, a doctor's visit or a surgical procedure) with a health care provider or health care facility, that provider or facility must give them a good faith estimate of the amount it expects to charge for that item or service. A provider or facility must also give this good faith estimate when a consumer requests it (regardless of if they schedule the item or service).

A patient-provider dispute resolution process is now available for uninsured (or self-pay) consumers who get a bill from a provider that's at least \$400 more than the expected charges on the good faith estimate. Under the patient-provider dispute resolution process, an uninsured (or self-pay) consumer, or their authorized representative, may initiate the dispute process. This process brings in an independent third-party called a dispute resolution entity to determine the appropriate amount the consumer must pay.

If a consumer chooses to dispute a charge for an item or service, the provider will be asked to provide:

- The good faith estimate they provided their patient.
- The bill they sent to their patient.
- Any supporting documents that help to explain why the bill is higher than the estimate.

Providers will be emailed a link to the Federal dispute resolution portal where they can upload the requested documents. The dispute resolution entity will contact the provider if any additional information is needed. Once a determination is made, the

31

Provider Directories

32

Provider Requirements

Must submit provider directory information to a plan or issuer:

- at the beginning of a network agreement with a plan or issuer
- if the provider terminates a network agreement with a plan or issuer
- when there are material changes to the content of provider directory information of the provider
- at any other time (including upon the request of plan or issuer) determined appropriate by the provider, health care facility, or the Secretary of Health and Human Services (HHS)

33

CMS Scenario..

- A doctor of chiropractic recently began a network agreement with a new health plan. Is the DC required to submit provider directory information to the plan?

Yes, under the No Surprises Act, the DC is required to submit provider directory information (i.e. the provider's name, address(es), specialty, telephone number(s), and digital contact information) to a plan or issuer when they begin a network agreement with a plan or issuer with respect to certain coverage.

34

Keep Information Up to Date

Names, addresses, specialty, telephone numbers, and digital contact information of **individual health care providers**; and

Names, addresses, telephone numbers, and digital contact information of each medical group, clinic, or health care facility contracted to participate in any of the networks of the group health plan or health insurance coverage involved.

35

Must Notify Patient of Availability of GFE

OMB Control Number (XXXX-XXXX)
Expiration Date (MM/DD/YYYY)

Appendix I

Standard Notice—"Right to Receive a Good Faith Estimate of Expected Charges" Under the No Surprises Act

(For use by health care providers on or after January 1, 2022)

Instructions

Under Section 2799B-6 of the Public Health Service Act, health care providers and health care facilities are required to inform individuals who are not enrolled in a plan or coverage or a Federal health care program, or not seeking to file a claim with their plan or coverage both orally and in writing of their ability, upon request or at the time of scheduling health care items and services, to receive a "Good Faith Estimate" of expected charges.

This form may be used by the health care providers to inform individuals who are not enrolled in a plan or coverage or a Federal health care program (uninsured individuals), or individuals who are enrolled but not seeking to file a claim with their plan or coverage (self-pay individuals) of their right to a "Good Faith Estimate" to help them estimate the expected charges they may be billed for receiving certain health care items and services. Information regarding the availability of a "Good Faith Estimate" must be prominently displayed on the covering provider's and covering facility's website and in electronic and on-site (such as scheduling or questions about the cost of health care occur.

36

Providers Urged to Update Information

PS.31
Your patients (and people who want to be your patients) rely on insurance companies' provider directories to find physicians that are right for them.
Under the No Surprises Act, your payers are required to have processes in place to remove providers who have not verified their directory information. Our records show that as of September 16, at least one of your providers' information has not been verified in more than 90 days.
It's essential that you complete this critical task today. Log in to the Availity Portal (now known as Availity Essentials) and check your providers' information.
Remember, even if nothing has changed, the No Surprises Act requires verification of your directory information every 90 days.

Disclaimer:
 This Good Faith Estimate only provides an estimate of the charges for those items or services reasonably expected to be furnished to you by or services which the provider recommends as part of your course of care that you will be required to pay unless otherwise noted. There may be additional items or services which the provider recommends as part of your course of care that you will be required to pay unless otherwise noted. This Good Faith Estimate is not a contract. The estimate is only valid for 90 days from the following date: 04 / 19 / 2022. If the actual charge for these services exceeds our estimate by the amount of \$1,000 or 10% (whichever is greater), we will notify you in writing within 30 days of the actual charges. Your Good Faith Estimate is not a contract.

What's a Comparative Billing Report from Medicare?

RELI Group
 7125 Ambassador Drive, Suite 100
 Windsor Mill, MD 21244

CMS
CENTERS FOR MEDICARE & MEDICAID SERVICES

CBR #: CBR202201
 Chiropractic Manipulative Treatment (CMT) of the Spine

January 31, 2022

47

Not Everyone Gets One

The criteria for receiving a CBR are that a provider:

1. Is significantly higher compared to either state or national percentages in any of the three metric calculations (i.e., greater than or equal to the 95th percentile), and
2. Has at least 60 beneficiaries with claims submitted for CMT of the spine, and
3. Has at least \$20,000 in total charges for CMT of the spine.

48

Only When Considered an Outlier

Table 2: Summary of Your Utilization of CPT® Codes for CMT of the Spine Between Jan. 1, 2019, and Dec. 31, 2019

CPT® Codes	Allowed Charges	Allowed Units	Beneficiary Count
98940 Without Modifier AT	\$0	0	0
98940 With Modifier AT	\$31,296	1,129	168
98941 Without Modifier AT	\$0	0	0
98941 With Modifier AT	\$0	0	0
98942 Without Modifier AT	\$0	0	0
98942 With Modifier AT	\$0	0	0
Total	\$31,296	1,129	168

*A beneficiary is counted once per row of CPT® code level. The total "Beneficiary Count" is not the sum total; it represents unique beneficiaries for all the CPT® codes for the 12-month period.

49

Now is the Time to Prepare!

- Go through your notes and make a plan; everything doesn't have to be done all at once
- This is part of the role of the office manager, biller, and/or compliance officer
- Note this training in your compliance manual as this can count as your annual required training
- Don't let your notes sit and wonder why you didn't get this done next January
