Intermediate to Advanced Topics

A diagram showing a green circle labeled "Easy" with an arrow pointing to a red circle labeled "Difficult".

- Basics will be mentioned, but are not going to be covered in detail
- Difficult nuances and gray areas to be reviewed
- Advanced principles necessary for compliance

15

16

Step One: Must Know The Difference

Chiropractic is Different In Medicare

CHIROPRACTIC MEDICARE BENEFITS AND LIMITATIONS	
<b>Covered and Payable</b> Active Treatment (AT) Spinal Chiropractic Manipulative Treatment (KMT) CPT Codes 98940, 98941, 98942	Recognize the Fundamentals of Medicare Coverage for Chiropractic Services
<b>Covered but Not Payable</b> N/A term must be provided to the patient prior to rendering Covered but Not Payable services.	Spinal CMT codes are deemed Covered but Not Payable when performed for: <ul style="list-style-type: none"><li>• Chiropractic maintenance treatment</li><li>• More than one spinal manipulation per day</li></ul>
<b>Statutorily Excluded from Medicare Chiropractic Benefit</b> N/A term is not required for these services. Office Financial Policy is recommended to communicate these limitations of Medicare coverage.	All services/supplies ordered or provided by a chiropractor, other than those defined above, are excluded from the Medicare benefit, and therefore the patient is responsible for payment. This includes but is not limited to: <ul style="list-style-type: none"><li>• Extremity CMT 98943</li><li>• Therapies</li><li>• X-rays</li><li>• Exams</li><li>• Products/Supplies</li><li>• Alternative treatment protocols</li></ul>

17

Step Two-Enrollment Part B

**Things to do:**

- ★ Apply for a National Provider Identification number (NPI)
- ★ Every provider must enroll in Medicare to treat a Medicare patient. **There is NO Opt-Out for chiropractors.**
- ★ Providers must enroll their corporate business entity in Medicare and attach individual provider numbers by reassigning benefits.

**PART B**

Medicare

18

Types of Medicare Coverage: Part B

- Basic Medicare Part B coverage is what most of the senior population have
- Medicare Part B is optional
- Medicare Part B is usually the primary coverage

Is age 65 or older and is working in a large employer that provides group-term life insurance to its employees	The employee has 20 or more employees, or the employer is a self-insured employer	Medicare	Medigap	Medicaid
Has an employer that provides group-term life insurance to its employees	The employee is entitled to Medicare	Medicare	Medigap	Medicaid
Is under age 65 and is working in a large employer that provides group-term life insurance to its employees	The employee has less than 20 employees	Medicare	Medigap	Medicaid
Is under age 65 and is working in a large employer that provides group-term life insurance to its employees	The employee has 20 or more employees, or the employer is a self-insured employer	Medicare	Medigap	Medicaid

When Medicare is Secondary

- I'm 65 or older and have group health plan coverage based on my own current employment status or the current employment status of my spouse.
- If the employer has 20 or more employees, then the group health plan pays first, and Medicare pays second.
- If the employer has less than 20 employees and isn't part of a multi-employer or multiple employer group health plan, then Medicare pays first, and the group health plan pays second.

## PFFS Aware!

- A provider that decides not to accept the plan's terms and conditions of payment **should not provide services to a member, except in emergencies**. If the provider nonetheless furnishes non-emergency services, then the provider will become a deemed provider under the plan for that specific visit and be subject to the plan's terms and conditions whether the provider agrees to them or not.
- A deemed provider can decide whether or not to accept the PFFS plan's terms and conditions of payment each time the provider sees one of the plan's members. The provider **cannot change his or her mind about accepting the terms and conditions of payment after providing services to the member**.

## Medicare Advantage Payer Requirements for Providers

**Humana** Medical Resources Pharmacy Resources Dentist Resources

Home / [Humana for Healthcare Providers](#) / [Business resources](#) / Compliance Training

## Provider compliance training materials

The following training modules must be completed annually by Humana members who participate in [Humana Medicare Advantage Special](#) Special Needs Plans (SNPs), Humana Healthy Hometown® Medicare plans in one or more states, and Humana Medicare Advantage plans in Illinois. Read below to determine which modules apply to your practice.

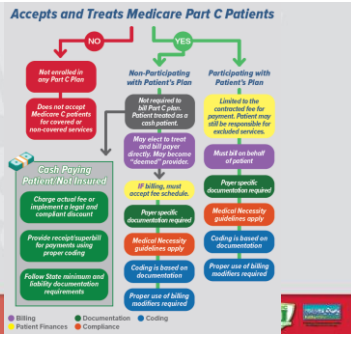

**For providers serving Humana MA SNPs, including chronic SNPs (C-SNPs), dual-eligible SNPs (D-SNPs), institutional SNPs (I-SNPs) and institutional-equivalent SNPs (IE-SNPs)**

Humana providers serving any Humana Medicare SNP members in the following states are required to complete with SNP training:

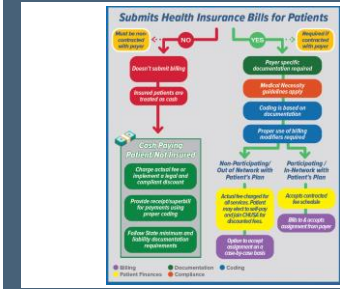

42

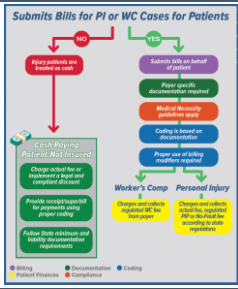

Obligations of DCs When Agreeing to Accept and Treat Medicare Part C Patients

49

50

51

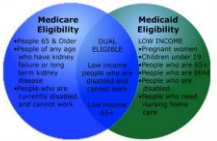

52

**Dual Eligibles** - The following describes the various categories of individuals who, collectively, are known as dual eligibles. Medicare has two basic coverages: Part A, which pays for hospitalization costs; and Part B, which pays for physician services, lab and x-ray services, durable medical equipment, and outpatient and other services. Dual eligibles are individuals who are entitled to Medicare Part A and/or Part B and are eligible for some form of Medicaid benefit.

Medicare is designed to cover only a portion of your healthcare costs; therefore those who have financial challenges can occasionally be covered under both Medicare and Medicaid. In this case, you would be considered "dual-eligible" and can then fill in gaps that Medicare won't cover.

**PROVIDER TYPES AFFECTED**

This article pertains to all Medicare providers and beneficiaries enrolled in Original Medicare or a MA

**Medicare**

54

### QMB ONLY

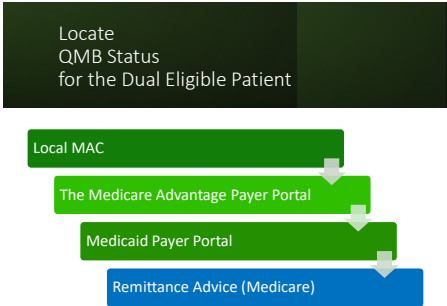

Medicaid pays Part A (if any) and Part B premiums. Medicaid pays Medicare deductibles, coinsurance, and copayments for services furnished by Medicare providers for Medicare-covered items and services

### QMB Plus

Same as QMB ONLY and includes **“full Medicaid”** coverage in addition to coverage for Medicare premiums and cost-sharing

55

56

### The Basic: QMB Only

**1. Qualified Medicare Beneficiaries (QMBs) without other Medicaid (QMB Only)** - These individuals are entitled to Medicare Part A, have income of 100% Federal poverty level (FPL) or less and resources that do not exceed twice the limit for SSI eligibility, and are not otherwise eligible for full Medicaid. Medicaid pays their Medicare Part A premiums, if any, Medicare Part B premiums, and, to the extent consistent with the Medicaid State plan, Medicare deductibles and coinsurance for Medicare services provided by Medicare providers. Federal financial participation (FFP) equals the Federal medical assistance percentage (FMAP).

57

**2. QMBs with full Medicaid (QMB Plus)** - These individuals are entitled to Medicare Part A, have income of 100% FPL or less and resources that do not exceed twice the limit for SSI eligibility, and are eligible for full Medicaid benefits. Medicaid pays their Medicare Part A premiums, if any, Medicare Part B premiums, and, to the extent consistent with the Medicaid State plan, Medicare deductibles and coinsurance, and provides full Medicaid benefits. FFP equals FMAP.

58

### SLMB and SLMB Plus

### Medicare

**3. Specified Low-Income Medicare Beneficiaries (SLMBs) without other Medicaid (SLMB Only)** - These individuals are entitled to Medicare Part A, have income of greater than 100% FPL, but less than 120% FPL and resources that do not exceed twice the limit for SSI eligibility, and are not otherwise eligible for Medicaid. Medicaid pays their Medicare Part B premiums only. FFP equals FMAP.

### Medicaid

**4. SLMBs with full Medicaid (SLMB Plus)** - These individuals are entitled to Medicare Part A, have income of greater than 100% FPL, but less than 120% FPL and resources that do not exceed twice the limit for SSI eligibility, and are eligible for full Medicaid benefits. Medicaid pays their Medicare Part B premiums and provides full Medicaid benefits. FFP equals FMAP.

59

### Medicaid Only

**8. Medicaid Only Dual Eligibles (Non QMB, SLMB, QDWI, QI-1, or QI-2)** - These individuals are entitled to Medicare Part A and/or Part B and are eligible for full Medicaid benefits. They are not eligible for Medicaid as a QMB, SLMB, QDWI, QI-1, or QI-2. Typically, these individuals need to spend down to qualify for Medicaid or fall into a Medicaid eligibility poverty group that exceeds the limits listed above. Medicaid provides full Medicaid benefits and pays for Medicaid services provided by Medicaid providers, but Medicaid will only pay for services also covered by Medicare if the Medicaid payment rate is higher than the amount paid by Medicare, and, within this limit, will only pay to the extent necessary to pay the beneficiary's Medicare cost-sharing liability. Payment by Medicaid of Medicare Part B premiums is a State option; however, States may not receive FFP for Medicaid services also covered by Medicare Part B for certain individuals who could have been covered under Medicare Part B had they been enrolled. FFP equals FMAP.

60

67

☐ **OPTION 1.** I want the (D) \_\_\_\_\_ listed above. ~~You may ask to be paid now, but I also want Medicare billed for an official decision on payment, which is sent to me on a Medicare Summary Notice (MSN). I understand that if Medicare doesn't pay, am responsible for payment, but I can appeal to Medicare by following the directions on the MSN.~~

These edits are **required** because the provider cannot bill the dual eligible beneficiary **when the ABN is furnished**. Providers must refrain from billing the beneficiary **during adjudication by both Medicare and Medicaid** in light of federal law affecting coverage and billing of dual eligible beneficiaries. **If Medicare denies a claim** where an ABN was needed in order to transfer financial liability to the beneficiary, the **claim may be crossed over to Medicaid** or submitted by the provider for adjudication **based on State Medicaid coverage and payment policy**. Medicaid will issue a Remittance Advice based on this determination.

QMB May Not Pay Up Front  
for Maintenance Care

**Dually Eligible beneficiaries must be instructed to check **Option Box 1**** on the ABN in order for a claim to be submitted for Medicare adjudication.

Strive to ensure **Option Box 1** is needed by doing:

- ☐ These edits are required because the **provider cannot bill the dual eligible beneficiary, when the ABN is furnished. Providers must refrain from billing the beneficiary pending adjudication** by both Medicare and Medicaid in light of federal law affecting coverage and billing of dual eligible beneficiaries. **If Medicare denies a claim** where an ABN was needed in order to transfer financial liability to the beneficiary, the claim may be **crossed over to Medicaid** or submitted by the provider for adjudication +
- ☐ Once the claim is **adjudicated by both Medicare and Medicaid**, providers **may only charge the patient** in the following circumstances:
  - If the beneficiary has **QMB coverage without full Medicaid coverage**, the ABN could allow the provider to shift financial liability to the beneficiary per Medicare policy.
  - If the beneficiary has **full Medicaid coverage and Medicaid denies the claim** (or will not pay **because the provider does not participate in Medicaid**), the ABN could allow the provider to shift financial liability to the beneficiary per Medicare policy, **subject to any state laws that limit beneficiary liability.**

 Medicare  

68

## Billing Requirements

All original Medicare and Medicare Advantage providers and suppliers – not only those that accept Medicaid – cannot charge QMBs for Medicare cost sharing for covered Parts A and B services.

If a provider bills a QMB for Medicare cost-sharing, or turns a bill over to collections, the provider must recall it. If the provider collects any cost-sharing money from a QMB, the provider must refund it.

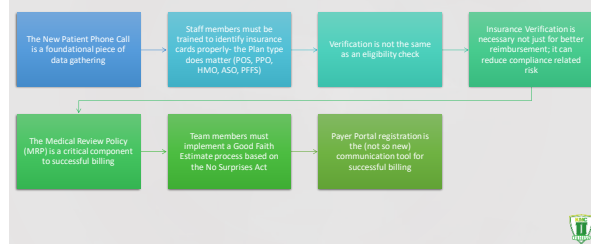

69

### QMB Compliance

- Establish processes to routinely verify Medicare patients for QMB status
- Determine billing process that apply to seeking payment from Medicaid
- Ask about **limited-purpose enrollment process** for Medicare providers seeking to enroll in Medicaid for the sole purpose of claiming Medicare cost-sharing reimbursement
- Note that Medicare Advantage Plans may have their own terms and ABN forms

70

## Foundations of the Reimbursement Process

71

Doctor  
Insurance Company

The diagram illustrates the relationship between a Doctor and an Insurance Company. On the left is a stylized icon of a doctor in a white coat and blue tie. In the center is a document labeled 'CONTRACT' with a red ribbon bookmark. On the right is a stylized building icon labeled 'INSURANCE COMPANY'. A large blue double-headed arrow connects the doctor and the insurance company, indicating a mutual relationship or exchange. The entire diagram is set against a white background with an orange border.

## Coverage Details

## What is Not Covered?

[illegible][illegible]

78

Medical Necessity Requirements

If coverage is available for physical therapy, the following conditions of coverage apply.

**GUIDELINES**

**Medically Necessary**

I. A physical therapy evaluation is considered medically necessary for the assessment of a physical impairment.

II. Physical therapy services are considered medically necessary to improve, adapt or restore functions which have been impaired or permanently lost and/or to reduce pain as a result of illness, injury, loss of a body part, or congenital abnormality when **ALL** the following criteria are met:

- The individual's condition has the potential to improve or is improving in response to therapy, maximum improvement is yet to be attained, and there is an expectation that the anticipated improvement is attainable in a reasonable and generally predictable period of time.
- The program is individualized, and there is documentation outlining quantifiable, attainable treatment goals.
- Improvement is evidenced by successive objective measurements.
- The services are provided by a qualified provider or physical therapy services (i.e., appropriately trained and licensed by the state to perform physical therapy services).
- Physical therapy occurs when the judgment, knowledge, and skills of a qualified provider of physical therapy services (as defined by the scope of practice for therapists in each state) are necessary to safely and effectively furnish a recognized therapy service due to the complexity and sophistication of the plan of care and the medical condition of the individual, with the goal of improvement of an impairment or functional limitation.

79

97140 services will be denied as integral or incidental to 98940-98943 services unless submitted with a -59 modifier, indicating a distinct procedural service.

PT, OT services are limited to one hour (4 units) for the combinations of codes submitted.

Current Procedural Terminology (CPT) instructions state that modifier 59 should not be used when a more descriptive modifier is available. Providers should utilize the more specific -X modifier when appropriate.

CPT code 97140 (manual therapy techniques) may not be billed on the same date of service as an extraspinal CMT code when the manual therapy service is provided to any extraspinal body region or area. In this instance, CPT 97140 is considered to be a component of the extraspinal CMT procedural code.
